

Section 719.88 – Street Frontage Landscaping

- A. A strip of land with a minimum width of twenty-five (25) shall be located between the abutting right-of-way of a public street or major thoroughfare and shall serve as a “landscape buffer.”
- B. The landscape buffer shall contain a minimum of one (1) tree not less than twelve (12) feet in height or a minimum caliper of two and one-half (2 $\frac{1}{2}$) inches (whichever is greater at the time of planting for each thirty (30) linear feet of frontage abutting said right-of-way. The remainder of the buffer shall be landscaped with grass, ground cover, shrubs, and other natural, living, and landscape materials.
- C. Access ways from public rights-of-way through required landscape strips shall be permitted, but such access ways shall not be subtracted from the lineal dimension used to determine the minimum number of trees required unless the calculation would result in a violation of the spacing requirement outlined in this Section.
